NOTICE OF PUBLIC HEARING
concerning

**ADOPTION OF TIME SCHEDULE ORDER
FOR
LINDA COUNTY WATER DISTRICT
WASTEWATER TREATMENT PLANT
SUTTER AND YUBA COUNTIES**

The Linda County Water District (hereafter Discharger) owns and operates the Wastewater Treatment Plant (hereafter Facility), a wastewater collection and treatment system that serves the community of Linda. The treatment plant is currently designed to discharge up to 1.8 million gallons per day of treated wastewater to the Feather River, which is tributary to the Sacramento River.

On 22 September 2006, the Central Valley Water Board adopted waste discharge requirements requiring the Discharger to comply with final effluent limitations by 18 May 2010 or 21 September 2011. To comply, the Discharger started construction of new wastewater treatment facilities, which is projected to be completed by December 2012. The Central Valley Regional Water Quality Control Board (Central Valley Water Board) or the Executive Officer will consider issuing a Time Schedule Order that contains interim effluent limitations and a new compliance schedule for the Discharger to comply with the final effluent limitations for copper, lead, zinc, bis (2-ethylhexyl) phthalate, dibenzo (a,h) anthracene, aluminum, manganese, ammonia, biochemical oxygen demand, total suspended solids, settleable solids, electrical conductivity, total coliform organisms, nitrite, nitrite plus nitrate, and mercury by December 2012.

If adverse comments are received during the public comment period, a public hearing concerning this matter will be held during the Central Valley Water Board meeting, which is scheduled for:
